YEARS EXPERIENCE	PRODUCTION APPS	CLIENTS SERVED	COUNTRIES

Senior Full-Stack Engineer with 14+ years of professional experience building scalable web applications across diverse domains including SaaS platforms, real estate systems, marketplace solutions, and AI-powered applications. Specializing in MERN stack, Laravel, WordPress, and Python with a focus on clean architecture, performance-first development, and exceptional developer experience. Experienced leading development teams of 5-15 engineers.

PROFESSIONAL EXPERIENCE

Senior Full-Stack Engineer   2017 - Present
Freelance / Contract (Upwork & Direct Clients)

- Architected and delivered 30+ production web applications using MERN stack, Laravel, and WordPress for clients across 20+ countries
- Built AI-powered interfaces and APIs using OpenAI, Claude, and locally hosted LLMs integrated into business workflows
- Implemented semantic search and RAG pipelines with vector databases for enterprise document management systems
- Designed automated AI agent pipelines for content generation, sentiment analysis, and data extraction, reducing manual entry by 40%
- Led distributed development teams of 5-15 engineers on complex multi-month projects
- Maintained 100% client satisfaction rating on Upwork with repeat business from enterprise clients

Full-Stack Developer   2011 - 2017
Various Companies & Agencies

- Developed and maintained 20+ web applications using PHP/Laravel, WordPress, jQuery, and early React
- Built custom CMS solutions, e-commerce platforms, and real estate listing systems
- Migrated legacy applications to modern frameworks, improving performance by 60%
- Implemented RESTful APIs, payment integrations (Stripe, PayPal), and third-party service integrations
- Managed MySQL and PostgreSQL databases handling millions of records with optimized queries

KEY PROJECTS

SaaS Platform Development

- Built multi-tenant SaaS applications with role-based access, subscription billing, and real-time dashboards
- Implemented microservices architecture with Node.js, MongoDB, Redis, and message queues

AI-Powered Web Applications

- Developed intelligent document processing systems with LLM integration and RAG pipelines

TECHNICAL SKILLS

Frontend

React   Next.js   TypeScript
Tailwind CSS   Redux   Vue.js

Backend

Node.js   Express   Laravel
Python   PHP   REST APIs
GraphQL

Databases

MongoDB   PostgreSQL
MySQL   Redis

AI / ML

OpenAI API   Claude API
LangChain   RAG   Vector DBs

CMS & Platforms

WordPress   Shopify
WooCommerce

DevOps & Tools

Docker   AWS   CI/CD   Git
Linux   Nginx

EDUCATION

Bachelor of Science in Computer Science
2007 - 2011

LANGUAGES

English (Professional) • Urdu (Native)

- Created personalized recommendation engines and predictive interfaces adapting to user behavior

Marketplace & E-Commerce Solutions

- Engineered marketplace platforms with vendor management, payment splitting, and inventory systems
- Optimized conversion funnels resulting in 35% increase in completed transactions

AVAILABILITY

Open to freelance, contract, and full-time remote opportunities worldwide. Available for immediate start.
